

Aryan Ratnani

MCA Student | Web Developer

Mumbai, India | +91 9510621391 | ratnaniaryan@gmail.com | linkedin.com/in/aryan-ratnani | github.com/Aryann149

MCA student at Amity University Mumbai with hands-on experience building and deploying production-ready full-stack web applications using React.js, Node.js, Firebase, PostgreSQL, and MongoDB. Comfortable across the stack, from database design to responsive UI, with working knowledge of Git/GitHub, cloud deployment on Vercel, Render, and Netlify, and AI API integration. Currently looking for a Web Developer Internship or Data Science role to contribute to real-world software projects.

EDUCATION

Master of Computer Applications — Amity University Mumbai 2025 – 2027 (Pursuing)

BBA (Computer Applications) — Savitribai Phule Pune University 2022 – 2025

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Responsive Design

Backend: Node.js, PHP, Python, Java

Databases: MySQL, MongoDB, PostgreSQL, Firebase

Tools & Cloud: Git/GitHub, Vercel, Render, Netlify

Soft Skills: Problem Solving, Effective Communication

PROJECTS

SyncBeats — Real-Time Music & Video Sync App 2026

HTML, CSS, JavaScript, Firebase Realtime Database, YouTube IFrame API, Netlify

- Built a real-time sync engine keeping playback lag under 300ms across 2+ concurrent viewers per room.
- Designed room-based session logic tested across 10+ unique room IDs with instant state broadcast via Firebase listeners.

Price Tracker — AI-Powered Full Stack App 2026

React.js, Node.js, Express.js, Supabase, PostgreSQL, Google Gemini API, Vercel, Render

- Built a scraper tracking 50+ products across Amazon and Flipkart, sending email alerts within 5 minutes of a price drop.
- Used Gemini API to auto-summarize 100+ product reviews, cutting manual read time; deployed on Vercel/Render.

SignBridge — Real-Time ASL Recognition App 2026

Python, MediaPipe, OpenCV, RandomForest, Text-to-Speech

- Built a real-time ASL recognizer using MediaPipe hand-landmark detection (21 points/hand) feeding a RandomForest classifier for live sign-to-text translation.
- Expanding vocabulary from ~26 letters to 2,000+ ASL words by integrating a video-clip dataset via keyframe + motion-delta feature vectors; added TTS + lip-sync avatar output.

Password Vault — Secure Credential Manager 2024

Python, Tkinter, Cryptographic Hashing

- Built a credential manager storing 20+ entries with SHA-256 hashing and zero plaintext on disk.
- Designed a Tkinter GUI (add/view/copy/delete) with 1-click clipboard copy, no external dependencies.

Personal Portfolio Website 2026

HTML, CSS, JavaScript, GitHub Pages

- Built a 5-section responsive site scoring 90+ on Lighthouse performance with under 2s load time.
- Live: aryann149.github.io/aryan149.github.io
